**Preferred Supplier of Oils,
Lubricants and Filtration.**

Donaldson
Filtration Solutions

SAKURA
Filtration Product

The NZ Marine Transport Association has specified TransDiesel as their preferred supplier of Oils and Lubricants.

OUR OBJECTIVES

To provide members of the Marine Transport Association with the best possible oil and filtration solutions that the industry has to offer.

Build a valuable long-term business partnership and maintain the up time of MTA members through supplying our quality products and service.

ABOUT TRANSDIESEL LTD

As New Zealand's premier heavy diesel engine and transmission specialists, TransDiesel Ltd has focused on meeting the diverse requirements of the New Zealand marine, road transport, earth-moving, forestry and power generation industries since 1980.

TransDiesel is the authorized New Zealand distributor for a wide range of products including Detroit Diesel, MTU, Perkins, VM Motori, Lombardini and Kohler engines, Allison transmissions, Sakura Filtration, Donaldson filtration, air intake and exhaust products. TransDiesel is the exclusive distributor nationwide for and Agip Oils and Lubricants.

TransDiesel is a privately owned and operated company with our head office in Christchurch and branches located in Rotorua and Auckland, including a specialist marine branch in Orams Marine Village. TransDiesel also have a large presence in the Pacific Islands including a sister company in New Caledonia.

TransDiesel has regional representatives based in:

- Central Otago to support the Southland, Central and Dunedin regions.
- Christchurch to support Canterbury.
- Nelson to support the West Coast, Marlborough and Nelson regions.
- Palmerston North to support Wellington, Taranaki, and East Coast.
- Rotorua to support BOP
- Manukau to support Waikato, Auckland.
- Auckland City to support North Harbour and Northland.

With this team in place we have full coverage to support the entire MTA member base.

TRANSDIESEL CUSTOMER SERVICE TEAM

In each TransDiesel location there is a customer service team headed by an experienced parts manager, TransDiesel customer service teams are in place to provide our customers with quality service and an effective solution wherever they are in the country.

ADDITIONAL SERVICES AND ADDED VALUE

TransDiesel core business is the sale of new and rebuilt diesel engines. This ensures our greater understanding of the importance of quality lubricants.

A major strength of TransDiesel is the quality and experience of its people in oil products.

TransDiesel can provide recommendations on getting the best from your lubricants.

TransDiesel offers the service of their in house oil specialist. He is an integral part of TransDiesel and the Agip lubricant programme, being able offer a full lubricant solution to our customers.

The TransDiesel customer service team's goal is to strive for consistency of customer service experiences to the customer. We aim to have the best reputation for customer service in the industry.

ABOUT AGIP OILS AND LUBRICANTS

Agip is the principle lubricant brand of the ENI group, which is rated in the top 6 energy companies in the world.

ENI is one of the most important integrated energy companies in the world operating in the oil and gas, electricity generation and sale, petrochemicals, oilfield services construction and engineering industries.

ENI is currently the largest gas & oil company in Europe and is also the sixth largest gas and oil company in the world.

The Agip brand spends millions each year in sponsorship to increase their brand awareness, particularly recognised in both the Formula One Grand Prix and the World super bike series.

Agip has always been involved in the research and production of high performance lubricants for all types of engines; from the first synthetic oils more than thirty years ago to the current high quality products.

They only use the best available base oil stocks and additives to produce their final products. Which means that you can rest assured that your investments are getting the protection that they need.

Agip is a top quality product and is recognised as such in the market. We always ensure the Agip brand is marketed at the top of the lubricants range and sell based primarily on quality and service.

Agip is not only a leading European brand, but also a leading global brand of lubricants and has a reputation for excellence. Agip is widely recommended by manufacturers of engines and equipment.

As TransDiesel Ltd is the direct importer for New Zealand and the Pacific region we are able to keep the prices as competitive as possible to our local markets. As a privately owned NZ company we can also offer a level of customer service and a personal touch that other multinational companies would struggle to meet.

AGIP PRODUCTS

We offer numerous AGIP oils and lubricants for the marine, transport, industrial and agricultural sectors. A full range of diesel engine, petrol engine, two stroke, hydraulic, gear and agricultural oils are available as well as antifreeze, brake fluids and greases

LUBRICANT SAMPLING

TransDiesel can provide access to its oil-sampling programme, which can be customised to meet your needs and requirements.

FILTRATION & EXHAUST SOLUTIONS:

TransDiesel are New Zealand's largest distributor of filtration products to the heavy equipment and marine industry. Donaldson, Sakura, Perkins, MTU / Detroit Diesel and Racor filtration products are stocked.

- **DONALDSON:**

Air cleaner assemblies, air elements, hydraulic elements, lube, oil, fuel and coolant filters. Exhaust components including mufflers and clamps. Donaldson filtration technology protects engines, delivers longer filter life and gives you the confidence that comes with using the industry leader.

- **SAKURA:**

Sakura filters are one of the largest filter manufacturers in the Japanese truck, bus, off-road and car markets. Manufactured in accordance to OEM specification. Extensive range of Oil, Air, Fuel and Heavy Equipment filters stocked.

- **RACOR:**

The Racor filter series are considered the leading option to install when engines demand heavy-duty, high capacity water separation and fuel filtration. Such filtration is the most complete, efficient and reliable engine protection you can install. Racor filters are high quality marine products that offer peace of mind by keeping your fuel clean and dry where standard filters succumb from normal usage. Your engine will perform better than ever with clean, water-free fuel.

Filtration for complete, efficient and reliable engine protection. They are installed quickly and are easy to service.

WARRANTY

Transdiesel has the full back up & warranty assurance of all our key suppliers including Agip lubricants, Donaldson, Sakura and Racor filtration.

PRICING TO MTA MEMBERS

TransDiesel will quote MTA members on an individual basis to make sure they are getting the correct products for the given applications as well as the level of pricing they deserve for the size of their business.

However, all MTA members will qualify for a minimum of 10% off TransDiesels current trade price level P2.

Payment will be made by way of an agreed account with set payment terms or by cash sales
